

# Cooling System Sealers & Flush

With a 60-year track record of use by commercial accounts, professional installers, engine rebuilders and do-it-yourselfers around the world, you can feel assured that these are the best products of their type.

*"This stuff really cleans way deeper than anything I've used over the last 35 years. I ordered an additional bottle that I'll use on our other vehicle as an annual complete coolant system cleaner."*

*"It is called Irontite Ceramic Motor Seal. This is the ONLY sealer I have found to be dependable; so do not let anyone talk you into using some other brand."*

*"Just wanted to say that Irontite All Weather Seal really works!!! 1997 Ford motorhome V10 head gasket leak, white smoke, all stopped after 20 minutes of running it up, Thank you!"*

**Professionally Recommended for over 60 Years!**

## PART #: 468-9110-16 Thoro-Flush

- Industrial strength radiator, engine coolant system and fuel tank cleaner.
- Loosens and removes rust, scale, grease, oil and sludge.
- Cleans auto and HD truck cooling systems.
- Safe for use on cast iron, aluminum or plastic.
- The most powerful flush available.
- For improved coolant flow and temperature control always flush with Irontite Thoro-Flush for the best possible results.

## PART #: 468-9120-16 Ceramic Motor Seal

- The Performance Enthusiast and Racer's Choice.
- Creates a solid ceramic coating throughout the entire coolant system to permanently seal.
- Seals castings and improves heat dissipation for improved flow and power.
- Seals head and intake gaskets, cylinder heads and engine blocks, cast iron or aluminum.
- Mix with water only.
- **Do Not** mix with antifreeze.

## PART #: 468-9130-16 All Weather Seal

- Stops head and intake gasket, radiator and other coolant system leaks in minutes.
- Pour-and-Go formula does not require flushing or draining of coolant mixture.
- Permanently blends with all coolants/antifreezes to stop existing and future leaks.
- Will not clog heater cores.
- Microemulsion detects and stops leaks at their source.
- Formulated to work in the most extreme weather conditions, HOT or COLD.
